

## EQ-300 WHOLE HOUSE PREFILTER CARTRIDGE REPLACEMENT

Replace the prefilter if there is a noticeable reduction of flow through the filter system, or if the prefilter cartridge becomes heavily discolored. Order the prefilter replacement cartridges (item number EQ-304) by calling the toll free number 866-2DRINK8 or online at [www.aquasana.com](http://www.aquasana.com).

1. Shut off the water supply with the ball valve (labeled as 'A' in the figure below).
2. Relieve water pressure by opening a faucet near the unit.
3. Place a pail under the prefilter housing to catch excess water. Press the pressure release button repeatedly (labeled as 'B' in the figure below). Unscrew the prefilter housing by rotating the transparent section of the prefilter housing clockwise.
4. Remove the used cartridge, rinse the sump, and place a new cartridge into the sump.
5. Clean the housing o-ring and relubricate it with petroleum jelly or silicone grease. Seat the o-ring into the proper groove and reattach the sump.
6. Slowly turn the water supply back on while checking for leaks. If there are any leaks, turn off the water supply and retighten connections.

### IMPORTANT REMINDER

The sediment prefilter on your Rhino Whole House Filter System should be replaced every 1-3 months to ensure optimum performance.

You can now order online at  
[aquasana.com](http://aquasana.com)

## PERFORMANCE DATA

RATED SERVICE FLOW: 7 gpm (26.25 L p/min)

CAPACITY: 300,000 gal (1,136,000 L) or 3 years

OPERATING PRESSURE RANGE: 20-100 psi (1.4 - 6.0 bar)

OPERATING TEMPERATURE RANGE: 40° - 100°F (4° - 38°C)

Unit is designed for a 3 year or 300,000 gallon life, whichever occurs first. Replace unit when there is a noticeable return of off-tastes or odors.

NOTE: If the unit must be removed from service for any reason, you may **temporarily** use the bypass hose provided to assure continuous water service. (The bypass hose should not be used as part of the permanent installation.)

FILTER CAPACITY 300,000 GALLONS.

## WARRANTY INFORMATION

**THE EQ-300 "RHINO" WHOLE HOUSE FILTRATION SYSTEM** is war ranted to be free from defects in materials and workmanship for a period of one year.

Your purchase and warranty are through Sun Water Systems, Inc. We recently purchased the patents, inventory and rights to this product from International Purity Corporation (which was previously owned by our president, Charles Strand). The unit you receive may be labeled as the International purity "Rhino" system or the EQ-300 System. Both are the same system and are now owned by Sun Water Systems, Inc.

"The most comprehensive central water filtration system in the world!"

Thank you for your purchase!
